20059500

Max Reach 150mm Bearing Capacity 75-230mm

### 50 Tonne Loadstar "Plus" Comprehensive Puller Kit

20505000

Comprehensive 50 tonne Heavy Duty Puller Kit - with the addition of Bearing Separator and Internal Pulling Unit

## LOADSTAR 'Lite' Range

Loadstar "Lite" is a new range of Medium Duty Hydraulic Pullers, featuring self-centring and self-locking puller legs. The unique action of the twin-collar design produces increased grip as the load is increased, which is ideal for situations requiring one-man operation. Loadstar "Lite" pullers can be used in either 2 leg or 3 leg formats and feature 360° swivel hose couplings for optimum access with in-built safety valve to prevent overloading. Loadstar "Lite" uses the same lightweight Aluminium Hydraulic pump as the Loadstar "Plus" range, providing an economic solution for customers requiring pulling solutions from 8 – 50 tonnes.

### 8 Tonne Loadstar 'Lite' Puller Kit

20100800

Max. Spread 450mm

Max. Reach 280mm

### 12 Tonne Loadstar 'Lite' Puller Kit

20101200

Max. Spread 485mm

Max. Reach 305mm

### 20 Tonne Loadstar 'Lite' Puller Kit

20102000

Max. Spread 570mm

Max. Reach 365mm
