- Special Ford Transit adaptor allows pulling force to be applied to the centre of the hub.
- Can be used as a general purpose three leg manual puller
 - Spread - 350mm, reach - 380mm.

Spare Parts :

08291100 Force Screw
08291300 Triple Beam
08331400 Leg Assembly
15404170 Ford Transit Adaptor

Universal Bearing Ring Puller

08100000

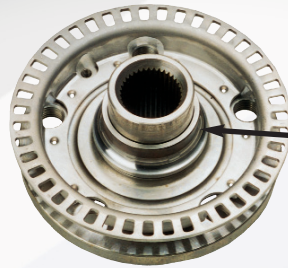

- For the removal of bearings, races, sleeves etc.
- Ideal tool for the removal of bearing rings from hubs, axles etc
- Removes the need for cutting tools - greatly reduces bearing ring removal time
- Unique patented design - specially designed cutting edges on puller legs
- Legs 'cut' and are pressed into the radius behind the bearing ring
- 'Loose / Tight' pulling principal means force is applied evenly at all points on the bearing ring
- Suitable for all types of bearings and rings from 40 - 60mm diameter
- Supplied in plastic toolbox for safe storage

Spare parts :-

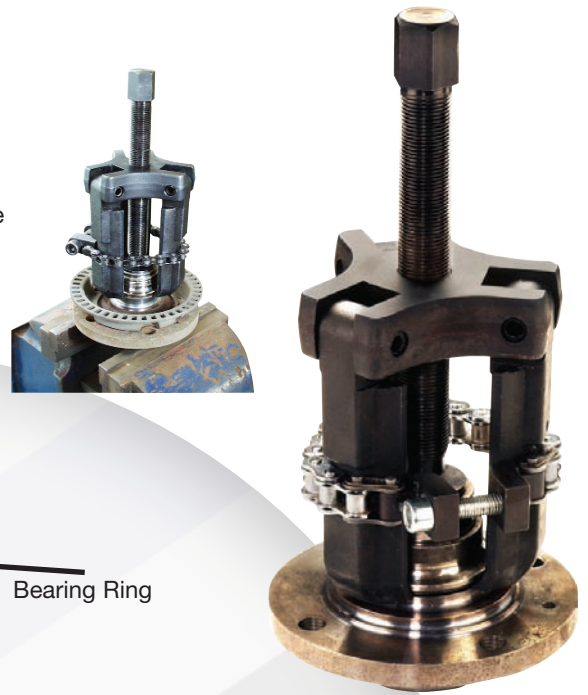

- 08351070 Puller Leg
- 08351170 Force Screw
- 09803900 Spindle End Piece

Specification:

- 1 tonne pulling capacity
- Spread - 95mm
- Reach - 118mm

Bearing Ring
